A Note from Motorsport Simulators

Dear NTK Members:

Motorsport Simulators manufactures professional race car simulators. Our simulators push the edge of technology and are among the most realistic on the planet today. Race teams and drivers around the world currently use our systems in driver development. Our passion comes from racing ourselves, and the ongoing challenge to achieve a competitive advantage.

While our primary business is developing and manufacturing systems for sale, we have created our first racing facility called 'RacingCenterUSA'. The purpose is simple, grant access to drivers in a setting that supports training at a fraction of the cost. You can practice or race almost any race car or track you desire. Of course this includes karts!

We are located just 3 miles north from the NTK track, next to Mr. Gattis Pizza! For any NTK member, we are offering you **50%** off your first session between now and the end of this year. Our hours are Monday to Friday 4:00pm to 8:00pm and Saturdays 1:00pm to 9:00pm.

Some of the exciting features our simulators have include; Triple 42" plasma displays, Motion, Hydraulic race pedal assembly, Fluid damper steering assembly, Motec data acquisition, Superb Sound systems and more.

If you want to see more, check out our web sites;
